Skill Level: Beginner

Dance Show

1	Start a new project and delete the Cat sprite	
2	Click the **Stage** icon beside the **Sprites** bar. Click the **Backdrops** tab. Select the **Choose Backdrop** icon from the **New Backdrop** bar.	3	Select **Stage1**	 stage1
4	Click the **Choose New Sprite** icon from the **Sprites** bar. Select **Mouse1**	
5	Select **Jouvi Hip-Hop**. Use the **shrink** tool to make the sprite smaller to fit on the stage. 	 Jouvi Hip-Hop
6	Add two more dancing sprites and use the **shrink** tool to fit the others on stage.	 D-Money Hip-Hop Anna Ode to Code
7	Your **stage** should look like this now.	
Dance Show

8	Click the **Jouvi Hip-Hop** sprite and click the **Scripts** tab	9	Place the following script blocks. This will make the sprite: • Change their *costume* ten times a second A costume is what a sprite looks like. A sprite that has many costumes is an *animated* sprite. This means that each costume is only a little different, and when a sprite changes costumes quickly, it will look like they do something.	10	Copy the code block to the other sprites. Just drag and drop all the blocks on each sprite	
11	Click the **Stage** and then click the **Sounds** tab. Select the **Choose Sound** icon from the **New Sound** bar

Dance Show

12	Select the **dance around** sound	13	Click the **Scripts** tab Place the following script blocks. This will make the background: • Play **dance around** sound until it's finished, and then play it again forever	14	And that's it! But what next? Try improving the game. • Mix different sounds by adding more sounds to the Stage and more play sound blocks • Make the dancers dance at different speeds • Make the dancers move around the stage • Add new dancers
