4	Click the Choose New Sprite icon from the Sprites bar.	
5	Select Jouvi Hip-Hop . Use the shrink tool to make the sprite smaller to fit on the stage. 	 Jouvi Hip-Hop
6	Add two more dancing sprites and use the shrink tool to fit the others on stage.	 D-Money Hip-Hop Anna Ode to Code
7	Your stage should look like this now.	 

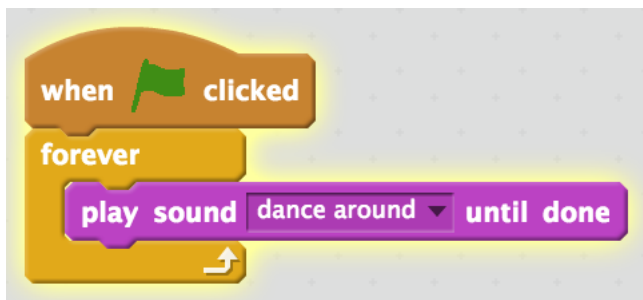

Dance Show

8	Click the Jouvi Hip-Hop sprite and click the Scripts tab	
9	<p>Place the following script blocks. This will make the sprite:</p> <ul style="list-style-type: none"> Change their <i>costume</i> ten times a second <p>A costume is what a sprite looks like. A sprite that has many costumes is an <i>animated</i> sprite. This means that each costume is only a little different, and when a sprite changes costumes quickly, it will look like they do something.</p>	
10	Copy the code block to the other sprites. Just drag and drop all the blocks on each sprite	
11	Click the Stage and then click the Sounds tab. Select the Choose Sound icon from the New Sound bar	

Dance Show

12	Select the dance around sound	 dance around
13	<p>Click the Scripts tab</p> <p>Place the following script blocks. This will make the background:</p> <ul style="list-style-type: none"> Play dance around sound until it's finished, and then play it again forever 	
14	<p>And that's it! But what next?</p> <p>Try improving the game.</p> <ul style="list-style-type: none"> Mix different sounds by adding more sounds to the Stage and more play sound blocks Make the dancers dance at different speeds Make the dancers move around the stage Add new dancers
